Testimonials of students and parents

"I like Kasia's piano classes because she is always very nice and I like playing the piano." - Elizabeth 9

"I like Kasia's piano classes because I can learn a lot from her."- Emily 7

I have so appreciated my daughter's music teacher, Kasia Haroldsen. She is exceptional at promoting both music as a discipline and as another language which her students may communicate through. She has been consistently patient and encouraging and yet quick to perceive the cause of performance problems. She works on helping the student with the basics so they are able to enjoy playing music! -Becky

I am a seventy year old woman with a piano that sat for several years unused. I have always wanted to play the piano so decided that rather than get rid of the piano I would learn to play and enjoy it. Kasia Haroldsen is an excellent teacher. She is patient as I try to learn the new patterns and willingly, and kindly, repeats information and answers questions that probably seem obvious to her. She also has a very good sense of humor and encourages her students to be relaxed and enjoy their playing music. - Myrna
